

## ProWein News 2017

Dear partners and friends,

we are looking back to an challenging year 2016. A wet and cold spring needed all our work, all our time in the vineyards. Never before we had to work so hard with the vines, take the last leave away for sun, healthy and ripe grapes.

2016 will be a vintage to drink! The wines are juicy, easy drinking on a high level with nice elegant fruit. Acidity is well balanced and the alcohol is not too high. Today the whites are ready to drink, well opened and very tasty. And the Pinots of 2015 will come in September with an enormous body, structure and a really high potential!

This year at ProWein we show the just bottled „summer wines“ and tank samples from our estate wines to the single vineyards. The bottling is sheduled for the first week of April. From 12th April the new vintage will be available.

### ProWein – Hall 14 D 39

As usual you will find us in Hall 14 (Germany) at the Rheinhessen presentation (D 39).

## NEWS I

### Fair'n Green

After 10 years of sustainable winegrowing in our family we decided to get member of Fair'n Green.

Fair'n Green is a club of winemakers, certified by government, for sustainability in the whole process from the vineyard until the distribution:

- we show respect and responsibility to nature
- winegrowing without herbicides and minimum crop protection
- innovation leader in wine business
- fair to nature and society

You will find the Fair'n Green sign on the Back labels from now.
